EXPERIENCE

Fresno City College, Fresno— *Computer Science Tutor*

August 2022 - Present

Provided instruction in computer science to students.

Maxco Supply, Parlier— *Assembly Technician*

February 2020 - August 2022

Built box forming machinery. Programmed PLCs. General electrical diagnostic and repair.

EDUCATION

Fresno State University, Fresno— *B.S. in Computer Science*

Graduated 20254

Specialized in simulation and artificial intelligence.

Clovis Community College, Clovis — *A.S. in Mechatronics*

August 2019 - August 2021

PLC programming and industrial technology.

PROJECTS

AI Age Detection — *Deep Learning Model*

A deep learning AI model trained to recognize age from photographs. Trained on the IMDB-WIKI dataset. Uses tensorflow keras to run prediction on a given set of images.

[Connption.xyz](#) — *Image Board Website*

An experiment to see how far vibe coding can be pushed. Pretty far, as I made a fully working image board. Users can create or reply to threads, and post videos and images. Check it out! Just give it a minute for the server to spin up. (I'm using the free plan.)

SKILLS

C++, C#, Javascript, Python, Lua

Electronics

Industrial Technology (PLCs)

Unity, Godot

Artificial Intelligence, Machine Learning

React, Bootstrap, PostgreSQL

LANGUAGES

Native English

Some Spanish

GITHUB

PROJECTS CONTINUED

[Blueprints](#) — *Video Game Mod*

A mod for the video game Barotrauma that lets users save and load circuit blueprints. Works with the legacy Barotrauma code perfectly using a C# to Lua interconnect. Over 3,000 users and counting! Many have described it as one of the best mods on the steam workshop.

[Macro Recorder](#) — *AutoHotKey Script*

An AutoHotKey script that can record mouse and keyboard commands and replay them. Can also be used to export AHK scripts of that recording.

VR Diagnostic Tool — *VR simulation*

Unity game used to diagnose ADHD in children. Uses greenscreens to render a realistic classroom over the real world. Timed distractors are measured in code using eye tracking to perform the diagnostic test. Used by the psychology department of Fresno State.

[BeatBox](#) — *Automatic Youtube shorts*

This is a modification of the video game Midi Playground used to make youtube shorts automatically. Simply input a Midi file and run the program to make a fully animated and synchronized video with one click.
